THURSDAY EVENING, FEBRUARY 1.

SOUTHERN STATE SECURITIES.—We have received from different parts of the South suggestive inquiries concerning the movement on foot to readjust the Southern State debts. We use the word "suggestive" advisedly, because the correspondence shows that in addition to the comprehensive plan we have discussed in our columns, in which the whole country has taken an equal interest, there are various partial propositions from individuals and smaller bodies of men that need to be received with much caution and a wise discrimination.

If the great work is ever to be accomplished with that fairness to all the interests involved which shall render it a final and satisfactory settlement, it must include all the proper subjects of consideration, and apply to all the existing difficulties. It may be that some of those who are anxious to be employed in the settlement of special cases, and in the interest of a particular class of bondholders, are only magnifying the negotiation in which they have most at stake; but it looks to us as if not a few of these minor projects were governed by the motives that control the speculation in the stock market, and were more intimately associated with the ups and downs of Wall street than the true welfare of the States and their creditors.

Whatever may be the purpose of these inferior propositions, the authorities of the several Southern States to which they are directed will do well to turn a deaf ear to the whole of them, and to give their attention solely to the grand movement which it is proposed to make along the whole line. If this is successful it will do more for each of the debtor communities than can be gained in any other way, and will prove to be the only practicable measure of relief to the whole country.

Those who have charge of the principal movement here are worthy of the entire confidence of both classes, and their efforts should not be interrupted by the attempt to patch up a partial settlement outside of the general issue. Such temporary expedients will not only tend to defeat the whole project, but will prove abortive even where they are accepted, leaving the work all to be done over again at a still greater disadvantage. If those who are in control at the South will estimate at their due value all applications and propositions from individuals or cliques who claim to represent special classes of creditors, and will confine their negotiations and responses wholly to the general scheme, they will so act the part of wisdom, and soonest reach the end so much to be desired.—*N. Y. Journal of Commerce.*

ENCOURAGE HOME MANUFACTURE I am now manufacturing a good and cheap PAINT, of several colors, the body of which is equal to Lead and Oil, which for tin roofs, barns, stables, fences, &c., will be found very suitable as well as economical, and an improvement over other cheap mixed Paints now in the market. For brick walls with a northern exposure it will act as a preventive to dampness. For iron it makes a solid and lasting coating, impervious to moisture and a preventive of rust. Being of various shades of color, the cornice and trimmings can be painted to suit. This Paint has been used by one railroad company and by many of the farmers in this vicinity, and is highly recommended by all who have tried it. 1 bbl., or 40 gallons, 60c per gal. and examine samples at 85 King st., under Sappota Hall.

JOB PRINTING.

Never have the times demanded more than now sound, thoughtful journalism. Seldom have the people had deeper interests at stake. Never did the events of the hour, as they unfolded themselves, surpass in personal interest to every citizen those which are now transpiring. Never has the importance of early, authentic intelligence of public matters been of greater importance to every one.

To meet this new era in journalism, the GAZETTE will put forth its utmost endeavor, and its success during this entire century in catering to the wants and meeting the wishes of the people, guarantees that with this paper means performance.

Washington is now the point to which all eyes look and all ears are directed. Almost at the base of the Capital, and yet in a Virginia town, amid a community which has proved its faithfulness to Virginia in more than one fiery trial; surrounded by the traditions and hopes of the Commonwealth, the GAZETTE has a position unique among journals and promises to be worthy of it. Its contigu
